Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Port of Entry Potable Water Distribution System Improvement Project in Fiscal Year 2027.

The entity to receive funding for this project is the City of Douglas located at 425 E. 10th St, Douglas, AZ 85607.

The funding would be used for expanding and modernizing the potable water distribution system in the existing port of entry to meet national security, trade, and mobility needs. Federal funds will be applied to engineering, construction, and supporting infrastructure required to upgrade transmission mains, increase capacity, improve water pressure, and enhance overall system redundancy. This project is an appropriate use of taxpayer funds because it will ensure that the United States has a fully functional, modern commercial port of entry that improves border security, enhances trade efficiency, and stimulates local and regional economic growth.

The project has a federal nexus because the funding provided is for purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Adelita S. Grijalva
